[hemant6021@gmail.com](mailto:hemant6021@gmail.com)

## GIS Professional

Objective is to work in a challenging and responsible environment and gain experience to enhance the scope of my GIS knowledge contributing to the organizational and personal growth. Expertise and experienced in ArcGIS for Desktop, ArcGIS Online, ArcGIS Hub-Open Data and processing Raster data. Trained in ArcGIS for Server (Now ArcGIS Enterprise) and ArcSDE. Most of the experience is in technical support which demanded self motivation and work in time sensitive scheduling. Quick learning and adaptability would be useful while working on any GIS based projects.

## Education

---

### Masters: M.Tech (GIS)

NIIT University  
Neemrana, Rajasthan

Graduated, July 2014  
CGPA 8.96

- IDRISI Selva
- QGIS

## Work Experience

---

- December 2017 – April 2018  
**Technical Lead at ESRI**

Assisting and guiding analyst at ESRI and user community, providing Tier III help regarding technical issues regarding usage of various products. This involves communicating with Account Managers, Developers and Operations team to test review and prioritize software enhancement requests, defects logged and ArcGIS Online Credit related issues.

- January 2018 – April 2018  
**Technical Lead- GIS at Cybertech Systems and Software Ltd.**

As a GIS Tech Lead, I assisted analysts from various teams and provided expert advise on various technical issues they had while assisting the clients. Conducted trainings on updates in software.

Responsibilities extended to train and mentor new hires, conduct time to time training to keep the team with new and updated technology to Support services team.

- March 2017 – December 2017  
**SME-GIS at Cybertech Systems and Software Ltd.**

As a Subject Matter Expert, assisted and provided technical advise on issues with ArcGIS products. My expertise involved usage and implementation of ArcGIS for Desktop, ArcGIS Online, ArcGIS Hub-Open Data, Raster processing issues. Also worked on extension like Network Analyst and Data Interoperability.

Responsibilities extended to train and mentor new hires, conduct time to time training to keep the team with new and updated technology as a member of Desktop team.

- October 2016 – February 2017  
**GIS Analyst at Cybertech Systems and Software Ltd.**

This position involved assisting clients with escalated and high priority issues. Responsibilities extended to assist colleagues on ArcGIS for Desktop, ArcGIS Online and raster related issues their clients presented.

- July 2015 – November 2017  
**Tier II Analyst- Desktop team at ESRI**

Handling escalated/high priority issues, along with regular issues; in regards with ESRI software. This includes identifying if it is data or software issue, troubleshooting, creating workflows specific to issues and documentation. Responsibilities extended to train and mentor new hires, conduct time to time training to keep the team with new and updated technology as a member of Desktop team. Area of specialization; ArcGIS Online, ArcGIS Hub- Open Data, ArcGIS for Desktop and occasionally handled Raster issues.

- August 2015 – September 2016  
**GIS Analyst at Cybertech Systems and Software Ltd.**

As a GIS analyst I assisted clients with their queries while using ArcGIS products. Learned new technologies while doing so.

- March 2015 – July 2015  
**Associate GIS Analyst at Cybertech Systems and Software Ltd.**

As a GIS analyst I assisted clients with their queries while using ArcGIS products. Learned new technologies and explored various aspects of technical support.

- September 2014 – June 2015  
**Tier I Analyst- Desktop team at ESRI**

As a Tier I analyst in Technical support for Desktop team, my responsibilities were to assist clients with their issues and queries on Desktop products. I worked on ArcGIS for Desktop, App Studio for Desktop, Drone2Map and Raster issues.

- January 2014 – August 2014  
**Project Trainee at Cybertech Systems and Software Ltd.**

Trained on ArcSDE and ArcGIS for Desktop technologies.

- June 2010 – June 2012  
**Field Researcher at Applied Environmental Research Foundation, Pune.**

Role of Field researcher included planning and execution of project activities of Energy and Biodiversity program. Conducted studies, compiled data for above projects to write conclusive or in progress reports. Utilized GIS skills planning, execution and representation of reports in terms of maps.

Developed research proposals which were used in communication to funding agencies.
